The screenshot shows the login page for 'dstny'. At the top is a teal header with the 'dstny' logo and a menu icon. Below the header, there are three input fields: 'Telepo server' with a dropdown menu showing 'ipsolutions.dk', 'Username' with the placeholder 'initials@domain.tld', and 'Password'. A note below the username field states 'Note: CustomID is currently not supported.' At the bottom of the form is a teal 'LOGIN' button.
